Jackson Square has the best of San Francisco. With its narrow alleys and brick and cast-iron fronted buildings dating from the California Gold Rush, the lifestyle offerings range from the finest in design—the antique to contemporary modern, fine art, and fine dining.

With 25 galleries all open to the public, Jackson Square is the best known secret to the serious collector, the interior designer, indeed anyone with a passion for the fine and decorative arts.

Spend the whole day indulging your senses and conclude with a gourmet's indulgence at one of Jackson Square's award-winning restaurants.

Come back again and again, and discover that Jackson Square is so distinctively San Francisco.

One block from the Transamerica Pyramid
